SUMMARY

As a passionate and driven individual, I have developed a keen interest in web development and have dedicated countless hours to personal projects in order to enhance my practical skills.

I am currently focused on pursuing a career as a freelance web developer and am eager to take on new challenges and collaborate with clients on diverse projects.

My dedication and commitment to the field have equipped me with a range of technical skills and the ability to deliver exceptional results in a timely and efficient manner. With a deep passion for web development, I am confident in my ability to provide outstanding service to clients and help bring their vision to life.

Work Experience

Domino's

Aug 2022 - Currently

Part-time instore

At Domino's, I honed my customer service skills, becoming proficient in food preparation, order-taking, and cash handling. I developed strong communication skills through working with a diverse team and gained experience in problem-solving and time management during busy periods.

Zaitouna

Jul 2022 - Aug 2022

web developer

During the internship, I gained practical experience in web development and learned how to work effectively within a development team. Also I was able to apply their knowledge of web development to real-world projects, gaining a deeper understanding of the process and the challenges involved. Through the internship, I developed their skills in programming languages such as HTML, CSS, and JavaScript, as well as in web development frameworks and tools.

Education

University of Glasgow

2021 -2024

Software engineering

I have developed a strong foundation in computer science and software development. Through coursework and personal projects, I have gained a deep understanding of programming languages, software architecture, and database design. Additionally, I have honed my problem-solving and analytical skills, which are essential in software engineering. I am eager to apply my knowledge and skills to future opportunities and continue to learn and grow as a software engineer.

Foundation year in Sciences

I gained a solid understanding of various sciences. Through my coursework, I developed strong critical thinking and problem-solving skills, as well as effective study habits. I am excited to apply my knowledge to future academic pursuits and make a positive impact in the field of science.

Projects

- **GoodBridge**
 - led a team to develop a full-stack web app using **ReactJS**, **NodeJS**, and **MongoDB**, while also **developing React unit tests**. The project demonstrated their proficiency in various technologies and leadership and collaboration skills.
 - **My-blog**
 - A personal blog using **Next.js** and **Sanity**. The project demonstrates my skills in both frontend and backend development, as well as writing and project management abilities.
 - **News-Live**
 - A website that utilizes stack media APIs to display the latest news using **Next.js**. The project showcases my skills in web development and API integration, as well as their ability to create dynamic and engaging platforms for users.
 - **AirBnb-clone**
 - Clone of the Airbnb front-end using **Next.js**, showcasing my skills in front-end web development and UI/UX design.
-

Skills

- **Programing Languages**
 - Java, Python, C, C ++, JavaScript
 - Dart, SQL, TypeScript, HTML
 - **Technologies**
 - Node.js, React.js, Next.js,
 - Django Firebase, Mongoose,
 - jQuery, Flask, TKinter, Jupyter
 - **Tools**
 - Git, GitLab, GitHub, VSCode
 - Anconda, IntelliJ, Latex,
 - MS Office apps.
-
